FORWARD LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospect and take informed investment decisions. This Report and other statements – written and oral – that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

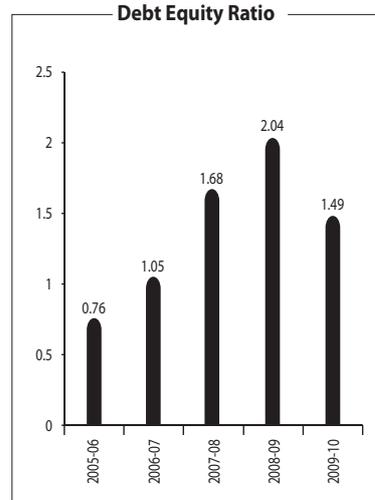

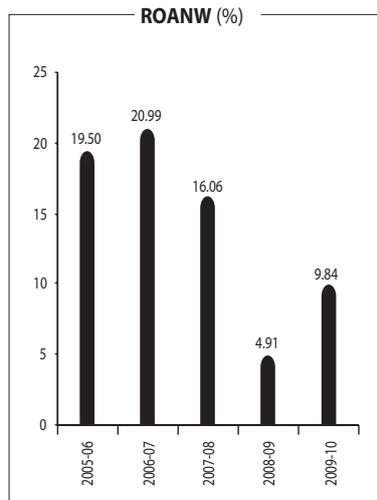

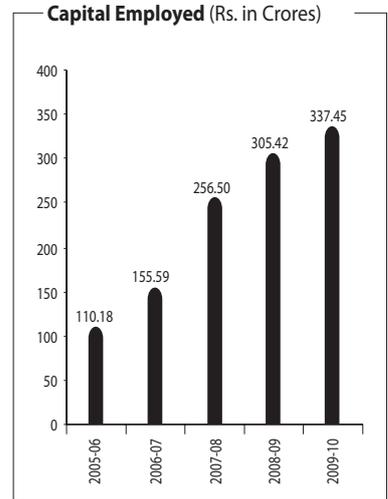

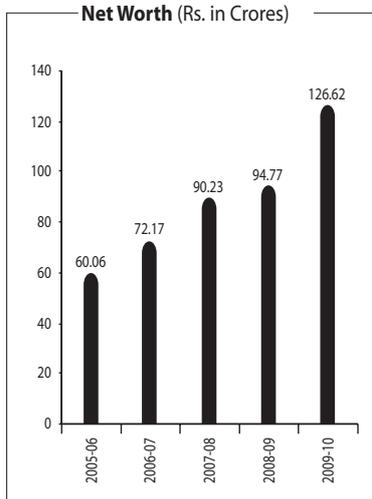

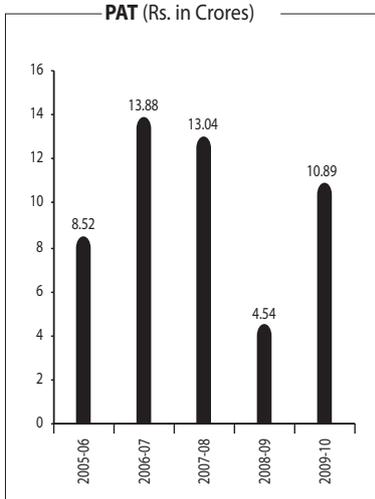

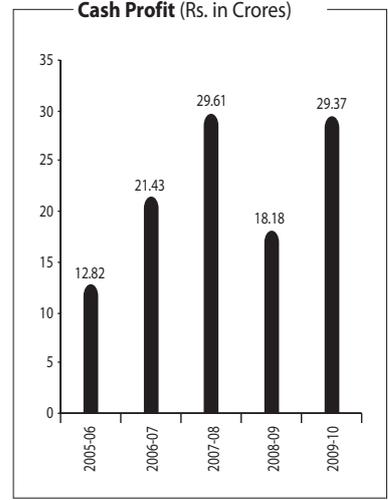

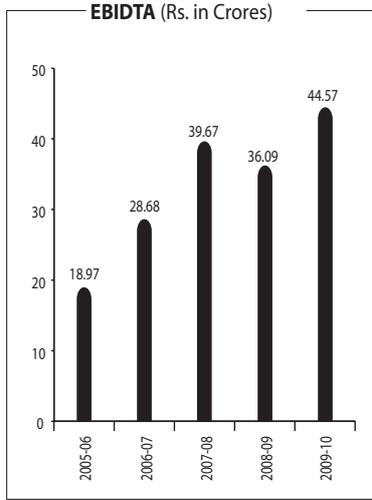

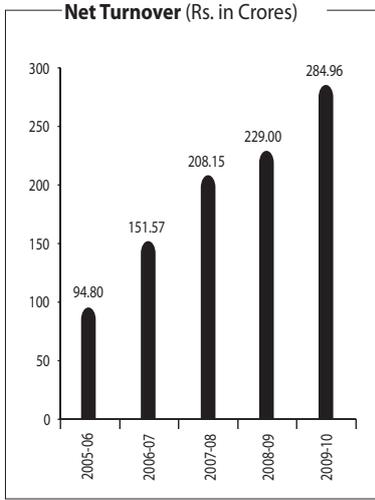

We can not guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

FINANCIAL AND PERFORMANCE REVIEW

- 24.44 % increase in Net Turnover from Rs. 229.00 Crores to Rs. 284.96 Crores.
- 23.50 % increase in EBIDTA from Rs. 36.09 Crores to Rs. 44.57 Crores.
- 61.55 % increase in Cash Profit from Rs.18.18 Crores to Rs. 29.37 Crores.
- 139.87 % increase in Profit after Tax from Rs. 4.54 Crores to Rs. 10.89 Crores.

The Accelerated depreciation of 50 percent on CVs, as part of the stimulus package announced by the Centre and the higher purchase of buses under JNNURM has been a major driving force behind the substantial growth in sales of CVs in the previous year.

The overall domestic sales of the commercial vehicles segment registered an increase from 3,84,194 vehicles to 5,31,395 vehicles registering a growth of 38.31 percent during 2009-2010 as compared to the same period last year. The medium & heavy commercial Vehicles (M&HCVs) segment registered growth at 33.55 percent during the year 2009-10 and Light Commercial Vehicles registered a growth of 42.67 percent.

TRANSFER TO RESERVES

Your Company proposes to transfer Rs. 50.00 Lakhs to General Reserve out of the amount available for appropriation and an amount of Rs. 5032.45 Lakhs is proposed to be carried over to Balance Sheet.

DIVIDEND

In view of the improved performance of your Company, your Directors are pleased to recommend a Dividend of Rs. 1/- per share for the year 2009-10. The total payout on Dividend (including tax) will be Rs. 192.21 Lakhs during the year under review.

The dividend, if approved, at the forthcoming Annual General Meeting will be paid to those shareholders whose names appear in the register of members as on 7th August, 2010.

SHARE CAPITAL

The Authorised Share Capital of the Company has been increased from Rs. 1800.00 Lakhs to Rs. 2100.00 Lakhs during the year under review. During the year the Company has issued 11,00,000 equity Shares and 39,00,000 warrants with an option to convert into 39,00,000 equity shares to the promoter and non-promoter group at a price of Rs. 107.50 per share. On account of this the issued capital increased to Rs. 2032.85 Lakhs.

The upfront money of Rs. 554.91 Lakhs which was received against the preferential issue of 25,81,000 warrants has been forfeited by the Company during the year.

OPERATIONAL HIGHLIGHTS

Forgings and Machining facility

The Company derives the major share of its revenues from the commercial vehicle segment. Your Company produced 26487.23 tons (including Job Work) during the year under review as compared to 18526 tons last year registering an increase of about 42.97%. During the year the Company has also installed a press of 2,000 tons which will further enhance the range of the products made by the Company.

The Company in order to enhance its billet cutting facilities has planned to import fully automatic horizontal bandsaw machine from Amada Machine Tools, Japan.

The Company plans to further augmented its Machining Facilities by procuring 2 nos CNC Gear Hobbing Machines, from Mitsubishi Heavy Industries Limited, Japan and 4 nos CNC Gear Hobbing Machines from Premier Limited which will help the Company to add more value to the components supplied to the OEM and will also help to further balance the capacity utilisation of the Heat Treatment facilities.

The Company has the state-of-art CNC Machining and Gear Cutting Facilities in which it has achieved accuracies of **DIN 8** in the soft stage and **class 8 & 9** in the hard stage in gear manufacturing. During the year the Company has added 45 new products in the turning section and 15 new products in the gear section.

Ring Rolling Line

Ring rolling is a cost-effective and efficient production process for production of ring-shaped components like crown wheels, bearing rings etc. Though the process encompasses a very large domain of ring sizes required for wind mill applications, RKFL equipment is fully capable of meeting the requirements of the automobile industry, especially that of commercial vehicles (primarily medium and heavy vehicles).

On account of the subdued export market the capacity utilisation of the Ring Rolling Line remained low. The Company has produced 9699.87 tons during the year as compared to 5643.24 tons last year thus registering a growth of 71.88%.

The improvement in the performance of the ring rolling will help the Company to produce the components with better productivity and precision and improved quality of the components.

DIRECTORS' REPORT

CREDIT RATING

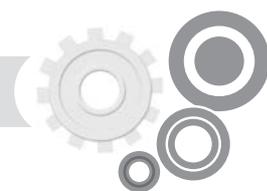

Your Company has the rating of LBBB+ for its fund based facilities and A2+ for its commercial paper/short term debt size of Rs. 60 Crores from ICRA Ltd.

EMPLOYEES STOCK OPTION SCHEME

Pursuant to the approval accorded by the shareholders on 22nd August, 2009, your Company has formulated the Employee Stock Option Scheme, (ESOS) 2009, for the benefit of the permanent employees including Directors, whether whole time or not but excluding the promoters of the Company. The said scheme is administered by the Remuneration and Compensation Committee of the Board through a trust. Under the said Scheme 4,68,159 stock options was granted at an exercise price of Rs. 20/- per share. The stock options granted to eligible employees are, inter alia, performance linked options and the exercise period would commence from the date of vesting and will expire on completion of 4 years from the date of vesting of options.

In accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 (hereinafter "SEBI guidelines"), the details in relation to the options granted, vested, exercised, lapsed etc. under ESOS, 2009, as on 31st March, 2010 are given as under :

Description	ESOS 2009
Total Number of options granted	4,68,159
Pricing formula/Exercise price	Rs. 20/-
Number of options vested	Nil
Number of options exercised	Nil
Total No. of Shares arising as a result of exercise of option	Nil
Options Lapsed	43,210
Variation in terms of option	NA
Money realised by exercise of option	NA
Total No. of options in force	4,24,949
Grant to Senior Managerial Personnel	Mr. Alok Kumar Sharda, CFO – 57,581 options Mr. J. P. Mishra, Vice President – 27,307 options Mr. M. T. Shantaveerapa, Vice President – 26,505 options Mr. Vijay Mishra, Vice President – 26,505 options
Grant to Non-Executive Director under the scheme	Nil
Employees who were granted 5 % or more of the total number of options granted during the year	Mr. Alok Kumar Sharda, CFO – 57,581 options Mr. J. P. Mishra, Vice President – 27,307 options Mr. M.T Shantaveerapa, Vice President – 26,505 options Mr. Vijay Mishra, Vice President – 26,505 options

ANNEXURE TO THE DIRECTORS' REPORT

Annexure 'A'

A. CONSERVATION OF ENERGY

(a) Energy conservation measures taken

The company provides high Priority to energy conservation schemes to conserve natural resources and remain competitive. Some of the significant measures adopted are :

- 1) Installation of Continuous Pusher type Fuel Efficient Furnace.
- 2) Installation of Flameless Electrically Heated Furnace.
- 3) Modification of the lining of the furnace to preserve heat in the Furnace.
- 4) Modify the design of the Furnace to improve the load ability of the Furnace on a continuous basis.

(b) Additional Investment Proposals, if any, being implemented for reduction of consumption of energy

The Company has taken a Line from JUSCO in the forging plant and the ring rolling plant which will ensure uninterrupted power and thus help in maintaining productivity and quality of the forgings.

(c) Impact of the Measures at (a) and (b) above for reduction of the energy consumption and consequent impact on the cost of production of goods

On account of the measures taken and proposed to be taken by the Company it is confident of reducing the cost incurred towards fuel costs. This will in turn help to reduce the cost of production of the goods and will make our products more competitive.

(d) Total Energy consumption and energy consumption per unit of production as per Form A of the annexure to the rules

B. TECHNOLOGY ABSORPTION

The particulars with respect to Technology Absorptions as per Form - B is given below :

(a) Research and Development (R & D) -

- 1) *Specific areas in which the R & D carried out by the Company* : The R & D effort in our industry is an ongoing process. Continuous efforts are taken in various areas of the manufacturing activity.
- 2) *Benefits derived as a result of the above R & D* : The Company has been able to reduce the cost of production of certain components through their process engineering.
- 3) *Future Plan Action* : The Company will focus on more areas of reduction of cost and process optimization.
- 4) *Expenditure on R&D* : The Company has not incurred any expenditure on Research and Development.

(b) Technology Absorption, Adaptation and Innovation -

- 1) *Efforts, in brief, made towards technology absorption, adaptation and innovation* : Continuous efforts are made on conservation of raw material by improving design and layout of the dies.
- 2) *Benefits derived as a result of above efforts* : Reduction in Raw Material Consumption.
- 3) *Technology imported during the last 5 years* : Nil

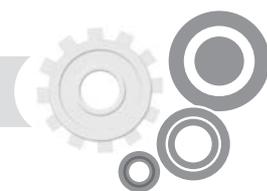

C. FOREIGN EXCHANGE EARNING AND OUTGO

Activities relating to exports :

The Company has derived Rs. 1603.16 Lakhs from exports which forms 5% of the total turnover.

Initiatives taken to increase exports :
a development of new export market for products and services and export plans.

The Company has identified exports to be a thrust area. Vigorous efforts are being made to develop new customers. Further fresh orders are received from existing customers for existing & new products developed for them.

The particulars of the Total Foreign Exchange used and earned are given below :

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

Forging has unique value among manufacturing processes. The industry is a key link between critical manufacturing segments-metal suppliers and end user industries. Forgings are intermediate products used widely by original equipment manufacturers (OEMs). They range in size from less than an ounce to more than 150 tons and are found in the machines, vehicles and equipment used to generate our industrial economy.

It is a cost-effective way to produce net-shape or near-net-shape components. In some materials, it is the only way. Virtually all metals can be forged, making an extensive range of physical and mechanical properties available in products with the highest structural integrity.

Forging imparts advantages that few processes can duplicate. The following are features of forging that make the process and industry so important to designers and users (specifiers) of components :

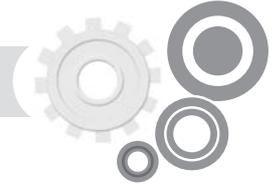

- Forgings can be manufactured from readily available bar stock.
- Almost all metals and alloys can be forged.
- There are few restrictions on part size.
- Forgings can produce high tolerance features.
- The products are fully recyclable.
- Forgings impart high strength and reliability to components.
- Forgings typically have relatively low life cycle costs.

Briefly, the composition of the Indian forging industry can be categorized into four sectors - large, medium, small and tiny. The organized sector accounts for about 65-70% of the total forging production in the country, while unorganized players (who are mainly small and tiny units) cater mainly to job work and the replacement market or tier 3 or tier 4 component manufacturers.

Forging industry is a basic industry and such industries tend to grow in a country in relation to the rate of growth of its GDP. As far as India is concerned, we expect our GDP to continue to grow and therefore, the basic industries will grow and so will the industry.

While the automotive industry is the main customer for forgings, the industry's continuous efforts in upgrading technologies and diversifying product range have enabled it to expand its base of customers to foreign markets. The Indian forging industry is increasingly addressing opportunities arising out of the growing trend among global automotive OEMs to outsource components from manufacturers in low-cost countries. As a result, Indian forging industry has been making significant contributions to country's growing exports.

The industry was previously more labour intensive (it is estimated that this industry provides direct employment to about 38000 people), but now with increasing globalization it is becoming more capital intensive. The total investment in the large and medium sectors is estimated to be around US\$600 million. The small scale units too are increasing their capital investment to keep pace with the increasing demand especially in the global markets as also to broaden the areas of demand for forgings. Many of them are now suppliers to Original Equipment Manufacturers (OEMs) in the automobile sector also, which speaks volumes about efforts at technology and quality up gradation.

Performance Scenario

The year 2009-2010 was a good year for the Industry as there was a huge demand for the vehicles and also there was an increase in production trends during the year as compared to the last year.

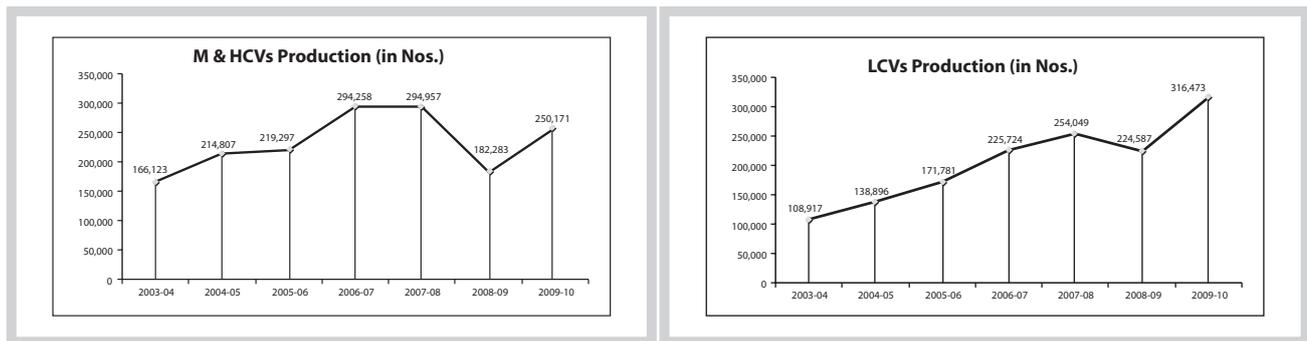

The cumulative automobile production data for April 2009 - March 2010 showed a growth of 25.76 percent over April 2008 - March 2009.

The accelerated depreciation of 50 percent on CVs, as part of the stimulus package announced by the Centre last year, has boosted their demand. Even the higher purchase of buses under JNNURM has been a major driving force behind the substantial growth in sales of CVs in the previous year.

In 2009-2010, production of passenger vehicles segment, commercial vehicles segment, three wheelers segment and two wheelers segment grew by 27.88 percent, 35.92 percent, 24.56 percent and 24.86 percent respectively.

Domestic Sales

Passenger Vehicles segment registered a growth of 25.57 percent during 2009-2010 as compared to the last year. In 2009-2010 sales of Passenger Cars, Multi Purpose Vehicles and Utility Vehicles grew by 25.10 percent, 40.94 percent and 20.88 percent respectively.

The overall domestic sales of the commercial vehicles segment registered increase from 3,84,194 vehicles to 5,31,395 vehicles registering a growth of 38.31 percent during 2009-2010 as compared to the same period last year. The medium & heavy commercial vehicles (M&HCVs) segment registered growth at 33.55 percent during the year 2009-10 and light commercial vehicles registered a growth of 42.67 percent.

Three wheelers sales recorded a growth of 25.92 percent in 2009-2010 and Two wheelers sales registered a growth of 26.00 percent during 2009-2010. Mopeds, Scooters and Motorcycles grew by 30.93 percent, 27.40 percent and 25.88 percent respectively.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Exports

During the year 2009-2010 overall automobile exports registered a positive growth of 17.90 percent.

During this period Passenger Vehicle, Commercial Vehicles, Three Wheelers and Two Wheelers segment grew by 32.89 percent, 5.59 percent, 17.03 percent and 13.54 percent respectively.

OPPORTUNITIES AND THREATS

A) Opportunities

On the canvas of the Indian economy, automotive industry occupies a prominent place. Due to its deep forward and backward linkages with several key segments of the economy, automotive industry has a strong multiplier effect and is capable of being the driver of economic growth. A sound transportation system plays a pivotal role in the country's rapid economic and industrial development. India holds huge potential in the automobile sector including the automobile components sector owing to its technological, cost and manpower advantage. The well-developed Indian automotive industry ably fulfills this catalytic role by producing a wide variety of vehicles : passenger cars, light, medium and heavy commercial vehicles, multi-utility vehicles such as jeeps, scooters, motorcycles, mopeds, three wheelers, tractors etc.

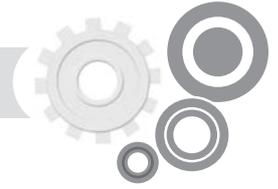

Automotive Industry comprises of automobile and auto component sectors and is one of the key drivers of the national economy as it provides large-scale employment, having a strong multiplier effect. Being one of the largest industries in India, this industry has been witnessing impressive growth during the last two decades. It has been able to restructure itself, absorb newer technology, align itself to the global developments and realize its potential.

In tandem with the industry trends, the Indian component sector has shown great advances in recent years in terms of growth, spread, absorption of new technologies and flexibility. The cost pressure on global auto makers and suppliers are driving them to outsource from low cost countries like India. Indian auto component industry has seen major growth with the arrival of world vehicle manufacturers from Japan, Korea, US and Europe. Today, India is emerging as one of the key auto components center in Asia and is expected to play a significant role in the global automotive supply chain in the near future. The auto component industry is also expected to drive the growth of the engineering sector in view of its strong downstream and upstream linkages with many other segments of the engineering sector like raw materials, capital goods, intermediate products etc. Auto component industry supports industries like automobiles, machine tools, steel, aluminum, rubber, plastics, electrical, electronics, forgings and machining. India has also emerged as an outsourcing hub for auto parts for international companies such as Ford, General Motors, Daimler Chrysler, Fiat, VolksWagon and Toyota.

The Automotive Mission Plan 2016 (AMP 2016) aims to make India a global automotive hub.

Growth Drivers of Indian Automobile Market :-

- Rising industrial and agricultural output.
- Rising per capital income.
- Favourable demographic distribution with rising working population and middle class urbanisation.
- Increasing disposable incomes in rural agri-sector.
- Availability of a variety of vehicle models meeting diverse needs and preferences.
- Greater affordability of vehicles.
- Easy finance schemes.
- Favourable government policies.
- Robust production.

B) Threats & Challenges

The forging industry of today looks forward with an awareness of the business and technical challenges that will shape its future. The major forces shaping the business community of the future are :

- Increasing globalization of markets.
- Demand for a greater return on investment and increased capital productivity.
- Customer expectations for increasingly higher levels of quality at a lower price.
- Availability of trained man power at shop floor and managerial level.
- Volatile international and domestic prices of forging quality steel affecting cost competitiveness.
- Inadequate overseas marketing support facilities.
- Volatile foreign exchange rates.

In order to meet the competitive challenges of the future and achieve its vision, the forging industry must fortify itself in several critical areas : technology development and application, energy and the environment, co-operative efforts, competitiveness, education, markets and human resources.

To achieve the industry's vision of the future, forgers must pursue dramatic forging process breakthroughs looking at the end product and radically changing the existing process to produce parts that satisfy the customer, while providing a reasonable level of profitability for all parties in the supply chain.

OUTLOOK

The low penetration levels and huge investments in the upcoming infrastructure projects can lead to double-digit growth in CVs even next year, if finance continues to be available and at affordable interest rates.

The fortunes of the forging industry are on a rise-it has consistently recorded a notable increase in production, capacity utilization and exports. Among the various segments of the forging business, it is the auto, mobile-related segment that is being talked about the most these days. The forging sectors fortunes are closely linked to that of the automotive industry, which at the moment, is doing extremely well in the country. The other significant driver for this sector is outsourcing and it is an indication that the industry's potential is being recognized world over. Global automotive giants are looking at India as a competent supply base and are shopping for their components here and Indian companies have even been acquiring companies abroad. In addition to the big players, the industry offers enough opportunities to small and medium size enterprises as well they form a large part of this Industry.

Considering the confidence of foreign automotive majors, auto component manufacturers and original equipment manufacturers, who are outsourcing their operations to India, it is quite likely that the forging industry will be foremost among the segments that will steer manufacturing growth here.

While the current performance of the industry is indeed flattering, what is more gratifying is the fact that players in the sector firmly believe it will scale greater heights in the coming years. The indications are all there - it's just a matter of time before the industry achieves its exceptional potential.

“ The low penetration levels and huge investments in the upcoming infrastructure projects can lead to double-digit growth in CVs even next year ”

MANAGING OUR RISKS

Risks are in fact opportunities that can be most profitably leveraged if identified, assessed and managed efficiently. A healthy balance between risk and reward can bring the Company steady realizations, boost profitability.

At Ramkrishna Forgings, all key aspects of risk management are incorporated in a comprehensive risk warning system, which enables the Company to manage risks at the individual, management and Board levels. Expert management of risk is consistent with creation of increased shareholder value.

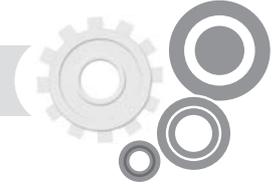

The Company has identified the key areas to concentrate on, which it believes to be critical for the achievement of organizational goals. A well defined structure has been laid down to assess, monitor and mitigate risks associated with these areas, briefly enumerated below :

1 Client Concentration Risks

The overall domestic sales of the commercial vehicles segment registered increase from 3,84,194 vehicles to 5,31,395 vehicles registering a growth of 38.31 percent during 2009-2010 as compared to the same period last year. However an increase in the cost of fuel and increase of vehicle financing cost may slow down the growth.

Risk Mitigation

- (i) The Company has taken steps to increase its presence in the export market. It has received enlistment from some international reputed clients and has also identified new geographical location for export.
- (ii) The Company has taken steps to de-risk its sales mix by increasing its focus on the mining sector and making inroads in the farm equipment business.
- (iii) The Company has identified new areas and products by which it can reduce its dependence on the commercial vehicle segment.
- (iv) The Company has taken steps to diversify the customer base through aggressive marketing and participating in the fairs.

2 Technology Risk

The forging industry must lead the drive for technological advances that benefit many facets of the forging process and continue to enhance the industry's competitiveness and profitability. The industry needs to develop and put in place programs and systems to help find the strategically significant technologies and find ways to deploy those technologies to the industry.

Risk Mitigation

- (i) The Company has the state-of-art of CNC Machining and Gear Cutting Facilities in which it has achieved accuracies of DIN 8 in the soft stage and Class 8 & 9 in the hard stage in gear manufacturing.
- (ii) The installation of the ring rolling line has helped the company to produce components with better input output ratio, higher strength on account of better grain flow and with fewer secondary operations.
- (iii) It has purchased most of the equipments from renowned vendors in India and abroad.
- (iv) It has a world class quality assurances laboratory with the best in practice equipments.

3 Competition Risk

With the number of organized players increasing competition has intensified in the forging industry. Moreover, low cost Asian countries like China and Thailand could pose stiff global competition.

Risk Mitigation

- (i) The Company has made 45 new product development during the year which has helped to enhance the product basket and add new clients.
- (ii) The prime focus of the Company is to identify the customer need and attain customer satisfaction.
- (iii) The Company has installed more machining centers from Japan in the ring rolling facility which will help the Company to produce the components with more value addition.
- (iv) The business segments-forgings, machining and heat treatment and ring rolling helps to enhance Company's competitiveness edge through significant value addition at each leg, makes it capable to produce ready to use components and become a one stop shop for the OEM's.

4 Human Risk

Human resources are among the most important keys to the future success of forging enterprises as it a labour intensive process requiring skilled manpower.

Risk Mitigation

- (i) The Company has implemented an ESOP scheme for its permanent employees of the Company which will help them to share the growth of the Company.
- (ii) It has a performance driven reward system and an incentive system linked to productivity to recognize the performance of its employees.
- (iii) The existence of renowned engineering colleges in the eastern regions helps the Company to have a rich pool of talented professionals. The Company has a regular training module for its operators/engineers which help them to update their knowledge and skill for achieving the organization goals.
- (iv) This has helped the Company to operate without losing any man day during the year under review.

Auditors' Report

To the Members of
RAMKRISHNA FORGINGS LIMITED

1. We have audited the attached Balance Sheet of **RAMKRISHNA FORGINGS LIMITED** as at 31st March, 2010 the Profit & Loss Account for the year ended on that date and also the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004, issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure, a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. *As explained in Note no. 34 (b), remuneration paid to the Chairman cum Whole Time Director and the Managing Director is in excess of limit specified in Schedule XIII of the Companies Act by Rs. 52,48,126/- for the year 2009-10 (Rs. 96,48,960/- for the year 2008-09). In response to an application made by the Company to the Central Government for approval of payment of increased remuneration to Chairman cum Whole Time Director and the Managing Director from 1st April, 2008 to 31st March, 2011 the Central Government, has vide its letter dated 18th March, 2010 assented to payment of remuneration on the basis of the permissible limit as specified under Schedule XIII of the Companies Act, 1956 or remuneration last drawn by the said Managerial Personnel which ever is higher. The Company has made a representation to the Central Government for reconsideration of its application and accord its approval to the Company for payment of remuneration as proposed in the said application. The said representation is pending for reconsideration of the Central Government.*
5. Further to our comments in the Annexure referred to above, we report that :
 - i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - iii) The Balance Sheet and Profit & Loss Account dealt with by this report are in agreement with the books of account;
 - iv) In our opinion the Balance Sheet, Profit & Loss Account and Cash Flow Statement dealt with by this report are in compliance with the accounting standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956.
 - v) On the basis of the written representations received from the Directors as on 31st March, 2010 and taken on record by the Board of Directors, we report that none of the Directors is disqualified as on 31st March, 2010 from being appointed as a Director in terms of clause (g) of sub-section (1) of Section 274 of the Companies Act, 1956;
6. In our opinion and to the best of our information and according to the explanations given to us, the said account, **subject to our remark in paragraph 4 above**, read with Notes to Account and Significant Accounting Policies in Schedule "20" give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
 - (a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2010

SCHEDULE - 20 : SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

(A) SIGNIFICANT ACCOUNTING POLICIES

(1) Basis of Preparation

The Financial Statements have been prepared to comply with the mandatory accounting standard as notified by Companies (Accounting Standard) Rules, 2006 and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the Historical Cost Convention basis.

All the items of Income and Expenditure have been recognized on accrual basis except certain Insurance claim, Sales Tax/Excise Claims/Refunds which are accounted on cash basis where the amounts are unascertainable.

The accounting policies applied by the Company are consistent with those used in last year except where otherwise stated.

(2) Fixed Assets

(a) Fixed Assets are stated at cost less accumulated depreciation. Cost includes cost of acquisition, construction and improvement made, which are inclusive of freight, duty (net of Cenvat), taxes, incidental expenses, interest and fund raising cost and other pre-operative expenses apportioned.

(b) Capital Work-in-Progress are stated at cost including interest, fund raising cost and related expenses incurred during construction or pre-operative period.

(c) Machinery spares which can be used only in connection with an item of Fixed Assets and whose uses as per technical assessment is expected to be non-regular are capitalised and depreciated prospectively over the residual life of the respective assets.

(3) Depreciation and Amortization

(a) Depreciation on Fixed Assets is provided during the year on Straight Line Method (SLM) at the rates and in the manner specified in the Schedule XIV of the Companies Act, 1956.

(b) Depreciation on assets added/disposed off during the year is provided on pro-rata basis.

(c) Depreciation on change in the value of fixed assets due to exchange rate fluctuation has been provided prospectively over the residual life of the respective assets.

(d) Leasehold Lands are amortized over the leased period.

(4) Impairment of Assets

The Company on an annual basis makes an assessment of any indicator that may lead to Impairment of Assets. If any such indication exist, the Company estimates the recoverable amount of the assets. If such recoverable amount is less than the carrying amount, then the carrying amount is reduced to its recoverable amount by treating the difference between them as impairment loss and charged to Profit & Loss Account. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased.

(5) Inventories

Inventories are valued at lower of cost or net realizable value after providing for obsolescence, if any. Cost of inventories comprises of all costs of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Net Realizable Value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated cost necessary to make the sale. Cost of Inventories of Raw Materials, Stores and Spares and Fuel are determined on FIFO basis. Inventories of Finished Goods and Work-in-Progress are valued at weighted average which includes Material Cost, Cost of Conversion, Depreciation and other Overheads to the extent applicable. Scrap is valued at Net Realizable Value.

(6) Investment

a) Long Term Investments are stated at cost less provisions, if any for diminution in value, which are considered to be other than temporary in nature.

Schedules forming part of the accounts

SCHEDULE - 20 : SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

- b) Current Investments are stated at lower of cost and fair value.

(7) **Foreign Currency Transactions**

- (a) Foreign Currency Transactions are recorded on the basis of exchange rate prevailing on the date of their occurrence.
- (b) Any Income or Expense on account of exchange rate difference either on settlement or on translation is recognized in the Profit & Loss account except in cases where they relate to acquisition of imported fixed assets in which case they have been adjusted to the carrying cost of such assets.
- (c) In respect of transactions covered under forward foreign exchange contracts the difference between the forwards rate and the exchange rate at the inception of contract is recognized as income or expense over the life of the contract.

(8) **Revenue Recognition**

Sales revenue is recognized when the significant risks and rewards of ownership of goods have been transferred to the buyer as per the terms of the respective sales order.

(9) **Borrowing Cost**

Interest and other costs in connection with the borrowing of the funds to the extent related/attribution to the acquisition/construction of qualifying fixed assets are capitalised up to date when such assets are ready for its intended use/commercial production started and other borrowing costs are charged to Profit & Loss Account.

(10) **Excise Duty**

Excise Duty and Cess on manufacturing goods is accounted for at the time of their clearances from the factory. Excise Duty and Cess in respect of stock of finished goods and scrap awaiting clearance from the factory at the year-end are considered for valuation of inventory.

(11) **Taxes on Income**

Provision for Current Income Tax is made in accordance with the provisions of the Income Tax Act, 1961. Deferred Tax resulting from "timing differences" between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax assets are recognized and carried forward only to the extent that there is a reasonable/virtual certainty that asset will be realised in future.

MAT Credit is recognized as an assets only when and to the extent there is convincing evidence that the Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) Credit becomes eligible to be recognized as an assets in accordance with the recommendations contained in guidance note issued by the ICAI, the said assets is created by way of credit to Profit & Loss Account and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

(12) **Employee's Benefits**

- a) Short term employees benefit are recognized as an expense at the undiscounted amount in the profit & loss account of the year in which related service is rendered.
- b) Post employment and other long term benefit are recognized as an expense in the profit & loss account for the year in which the employee has rendered services. The expenses is recognized at the present value of the amount payable determined at the year end on the basis of an actuarial valuation using projected unit credit method. Actuarial gains and losses in respect of post employment and other long term benefit are charged to profit and loss account.
- c) The Company's contribution to the Provident Fund and the Family Pension Fund are charged to Profit & Loss Account.

SCHEDULE - 20 : SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

(13) Employee Stock Option Scheme

In respect of stock option granted to employees pursuant to the Company's stock option schemes, through the trust route, accounting is being done as per the SEBI Guidelines, 1999 and the Guidance note on share based payment issued by the ICAI. The excess of fair market price as on date of grant of option, over the exercise price is recognized as deferred employee compensation and is charged to Profit & Loss Account on straight line basis over the vesting period. Further as the ESOP scheme is through trust route the difference between the cost of acquisition of shares by trust from the open market with that of fair market price as on date of grant of option has been recognized as ESOP expenses under the head miscellaneous expenses and is charged to Profit & Loss Account on straight line basis over the vesting period.

(14) Use of Estimates

In preparing Company's financial statement in conformity with accounting principles generally accepted in India, management is required to make estimates and assumptions that affects the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of financial statement and reported amounts of revenues and expenses during the reporting period. Actual result could differ from those estimates. Difference between actual result and estimates are recognized in the period in which the results are known/materialized.

(15) Earning Per Share

Basic earning per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders are divided with the weighted average number of shares outstanding during the year after adjustment for the effects of all dilutive potential equity shares.

(16) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the Notes on Accounts. Contingent Assets are neither recognized nor disclosed in the financial statements.
